

## **WE ARE KICKING THE SHRINK WRAP AND CARD PROCESS IN THE CAN!**

*We have found many overages to an extreme in the shrink wraps, and cards. We work hard to try to help, It seems to be a process to get artists to come in to take care of their Shrink Wraps and Cards, or, even come to exchange day. Unfortunately, we are wasting precious time dealing with those that are no in compliance. We no longer want to be the card and shrink police and are now basing this on an honor system. **You will now manage them by yourself.***

***We are eliminating the 3 month exchange days,** and you will no longer need to enter 1 monthly show to qualify to display. This is now a privilege of Membership and as such, you are still required to enter 3 shows a year at the gallery per your Membership Agreement. Remember, engaging in your own business sales is basically your responsibility. Something to ponder*

### **Artists will now be expected to do the following:**

- 1) Artists will need to manage their own inventory and replace it as sold, up to 6 shrink wraps, (sorted by sizes), and up to 12 cards (three slots) at a time.*
- 2). If any shrink wrap racks overflow, we will randomly remove them and notify you.*
- 3) The card racks will have names on them up to three slots, however if our space gets filled you will be limited to what we have at the time and we will randomly remove them and notify you.*

*We hope this can resolve the countless hours that have put demands on volunteers that could be assisting elsewhere in the gallery.*

*How about you, can you help with some tasks? It would be appreciated!*
