We want to thank you for joining us at our *Holiday Treasure's Small Image Awards Show*, and are looking forward to all your artwork in the gallery.

Regarding the Prospectus, and the wiring requirements. We understand that our Gallery wiring requirements will prove to be difficult for small images, and are offering an alternate option as follows:

WIRING exception for artworks under 16x20

Wire art at a minimum of 1/4" to 1/3" of the height of the frame, making certain your wire is tight and does not hang above the top of the frame when stretched make certain it does not tip drastically forward.

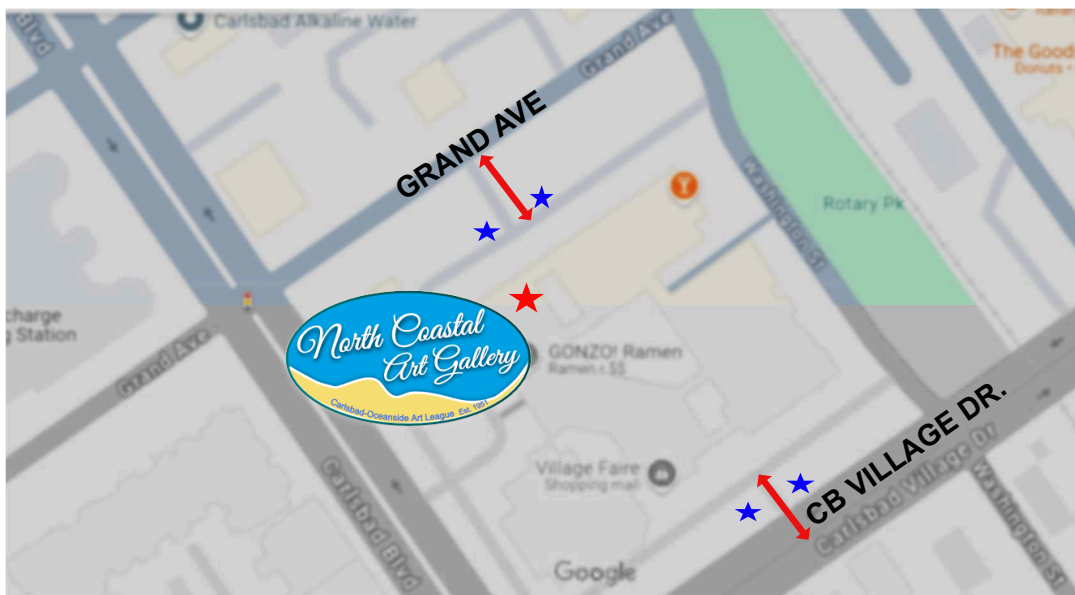

We hope this revised requirement assists you in preparation for the show.

Wire with D-rings. Review How to attach and make Certain you tape around your Wires, and provide ID on the backside of all at submitted.
